

# UTILITY SOLUTIONS

PIPE AND CABLE PLACEMENT **IN STOCK** AT AIS  
BAROID INDUSTRIAL DRILLING FLUIDS

## BASE FLUIDS:

Bring makeup up water into optimal pH & softness ranges.

50lb bagged bentonite that is highly versatile for use in all types of bores.

50lb bagged bentonite with added extenders for use in smaller bores.

A single sack product designed for smaller clay bores.

Increase filtration control & hold bore open in multiple soil types.

A clay stabilizer to reduce the sticking tendencies of clay.

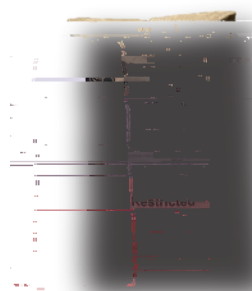

Keeps clay off of tooling.

Increase the bore fluid's ability to suspend & carry out cuttings in sand.

A lubricant that adheres to the metal surfaces & reduces drag on tooling.

A dry powder meant to "gel" up spent fluids for disposal as a solid waste.

Fibrous material meant to reduce lost circulation due to "frack outs".

Extremely effective slug treatment for bores experiencing extreme "frack outs"
